

## **DM 50 UPDATING PRESETS**

### **Storing the Preset**

1. Make the required changes to the class on your DM50/55 Series meter that you want the pre-set to contain. Depending on the class and weight that is currently displayed on your machine and the options you have purchased, you may also be able to store postage, weight, date, Envelope Messaging, and inscription.
2. Press Options.
3. Use the Review ▲ ▼ keys to scroll to "Change Setup?", then press Enter/yes to confirm.
4. Use the Review ▲ ▼ keys to scroll to "Use preset setup?", then press Enter/yes to confirm.
5. Use the Review ▲ ▼ keys to scroll to "Store new preset?", then press Enter/yes to confirm. You can choose whether to review the settings of the new pre-set before you store it.  
  
Yes to Review Settings - Scroll to view the preset settings of class, account, etc.  
  
No to Review Settings - Skips the review.
6. When prompted, press Yes to confirm storing of the new pre-set. A message confirms the new pre-set has been stored.
7. When finished, follow prompts to return to the Home screen.
